

Wallenpaupack Area School District

Our philosophy of Career Awareness is one in which we provide an opportunity for the individual to explore multiple careers in a number of occupations. The trades have sufficient commonalities in human requirements and kinds of work to permit a high degree of mobility within the occupations associated with the shops we have here at Wallenpaupack Area.

COURSE: Exploring Building Construction and Power Mechanics

GRADE LEVEL: 9

LENGTH OF COURSE: 45 days

TEXT: Small Engine Technology; Modern Carpentry

PUBLISHER: Delmar Publishers; Goodheart-Wilson Company, Inc.

COPYRIGHT: 1999; 2003

COURSE DESCRIPTION:

This program is designed to let the student explore and experience first hand what is being offered in the Building Construction and Power Mechanics Curriculum. This first year orientation is required for admittance into either level one program. A student must then be selected based on performance, attendance and cooperation. During this first year orientation, the students are introduced to the different areas in the trades.

CURRICULUM WRITING TEAM: Kevin McCue

DATE OF REVISION: 2007

Wallenpaupack Area School District

Course: Exploring Building Construction
and Power Mechanics

Unit: Orientation

Grade Level: Grade 9

PA Standards: 13.1
13.2
13.3
13.4

Topics:	Skills:
Familiarize the student with the Building Construction and Power Mechanics Course's	Active listening strategies Drawing inferences Following directions
Activities:	Performance Assessments:
Class Lecture Shop Tour	Teacher Observation Oral/Written Response to questions Self-evaluation

Wallenpaupack Area School District

Course: Exploring Building Construction
and Power Mechanics

Grade Level: Grade 9

Unit: Shop Safety

PA Standards: 13.1
13.2
13.3
13.4

Topics:	Skills:
Rules and Regulations	Demonstrate knowledge of safety practices in the use of hand tools, power equipment, and in performing job tasks and procedures
Activities:	Performance Assessments:
Lecture Shop demonstration View Smart board presentation	Written Test

Wallenpaupack Area School District

Course: Exploring Building Construction
and Power Mechanics

Unit: Career Exploration

Grade Level: Grade 9

PA Standards: 13.1
13.2
13.3
13.4

Topics:	Skills:
Encourage students to think seriously about work and the important part it will play in their lives	Defining career identity, job lifestyles, and work Listen to Lecture Discussion Participation Take Notes Listen to others <ul style="list-style-type: none">• Ask probing questions• Analyze information, ideas, and opinions to determine relevance
Activities:	Performance Assessments:
Lecture View Smart board presentation Open discussion Class debate	Teacher Observation Oral/Written Response to questions Self-evaluation

Wallenpaupack Area School District

Course: Exploring Building Construction and Power Mechanics

Grade Level: Grade 9

Unit: Career Exploration

PA Standards: 13.1
13.2
13.3
13.4

<p>Topics:</p> <p>Identify their goals, values and aptitudes</p>	<p>Skills:</p> <p>Identify and rate the importance of values to select a career goal Identify their individual interests Listen to Lecture Discussion Participation Listen to others</p> <ul style="list-style-type: none"> • Ask probing questions • Analyze information, ideas, and opinions to determine relevance • Take notes when needed
<p>Activities:</p> <p>Lecture View Smart board presentation Board demonstrations Open discussion Class debate Guided practice Shop demonstration Supervised shop work Group projects and individual projects Cooperative learning groups Homework</p>	<p>Performance Assessments:</p> <p>Teacher Observation Oral/Written Response to questions Self-evaluation</p>

Wallenpaupack Area School District

Course: Exploring Building Construction and Power Mechanics

Grade Level: Grade 9

Unit: Career Exploration

PA Standards: 13.1
13.2
13.3
13.4

<p>Topics:</p> <p>Make students aware of attitudes and skills needed to be successful on the job</p>	<p>Skills:</p> <p>Listen to Lecture Discussion Participation Listen to others</p> <ul style="list-style-type: none"> • Ask probing questions • Analyze information, ideas, and opinions to determine relevance • Take notes
<p>Activities:</p> <p>Lecture View Smart board presentation Board demonstrations Open discussion Class debate Guided practice Shop demonstration Supervised shop work Group projects and individual projects Cooperative learning groups Homework</p>	<p>Performance Assessments:</p> <p>Teacher Observation Oral Response to questions Self-evaluation of their attitude toward others</p>

Wallenpaupack Area School District

Course: Exploring Building Construction and Power Mechanics

Grade Level: Grade 9

Unit: Wiring

PA Standards: 13.1
13.2
13.3
13.4

Topics:	Skills:
<p>Residential Wiring 120V Theory Residential Wiring 120V materials</p> <ul style="list-style-type: none"> • 14-2, 14-3; 12-2, 12-3 wire • Wire nuts • Receptacle boxes 	<p>Identify basic safety procedures Understand the effects of electrical shock Describe conditions likely to affect severity of electrical shock Maintain Safety during installation Describe steps to help a shock victim Explain conductors and insulating materials Define basic electrical terms Describe the makeup of an electrical circuit Discuss the four types of boxes Discuss box mounting systems</p>
Activities:	Performance Assessments:
<p>Lecture View Smart board presentation Board demonstrations Open discussion Class debate Guided practice Shop demonstration Supervised shop work Group projects and individual projects Cooperative learning groups Homework</p>	<p>Shop Observation Oral Questioning Quizzes Written Test</p>

Wallenpaupack Area School District

Course: Exploring Building Construction
and Power Mechanics

Unit: Wiring

Grade Level: Grade 9

PA Standards: 13.1
13.2
13.3
13.4

Topics:	Skills:
Residential Wiring 120V Tools	Identify basic safety procedures Identify tools used Understand proper application of tools Identify various problems, diagnosis and service tips and procedures
Activities:	Performance Assessments:
Lecture View Smart board presentation Board demonstrations Open discussion Class debate Guided practice Shop demonstration Supervised shop work Group projects and individual projects Cooperative learning groups Homework	Shop Observation Oral Questioning Quizzes Written Test

Wallenpaupack Area School District

Course: Exploring Building Construction
and Power Mechanics

Grade Level: Grade 9

Unit: Wiring

PA Standards: 13.1
13.2
13.3
13.4

Topics:	Skills:
Wire a receptacle	Understanding Simple circuits Identifying Service entrance Recognize the basics of distribution panels Identifying colors, grounds and terminals Understand how to install Romex Demonstrate the proper method for attaching conductors to devices and fixtures
Activities:	Performance Assessments:
Lecture View Smart board presentation Board demonstrations Open discussion Class debate Guided practice Shop demonstration Supervised shop work Group projects and individual projects Cooperative learning groups Homework	Shop Observation Oral Questioning Quizzes Written Test

Wallenpaupack Area School District

Course: Exploring Building Construction
and Power Mechanics

Grade Level: Grade 9

Unit: Wiring

PA Standards: 13.1
13.2
13.3
13.4

Topics:	Skills:
Wire a Switch to Light Wire a Light to Switch	Understand the basic wiring principles needed to run a simple circuit Understand Wiring terminology Identify basic rules for wiring
Activities:	Performance Assessments:
Lecture View Smart board presentation Board demonstrations Open discussion Class debate Guided practice Shop demonstration Supervised shop work Group projects and individual projects Cooperative learning groups Homework	Shop Observation Oral Questioning Quizzes Written Test

Wallenpaupack Area School District

Course: Exploring Building Construction
and Power Mechanics

Grade Level: Grade 9

Unit: Wiring

PA Standards: 13.1
13.2
13.3
13.4

Topics:	Skills:
Wire a Switch to Light to a Constantly hot Receptacle	Understand the basic wiring principles needed to run a simple circuit Understand Wiring terminology Identify basic rules for wiring
Activities:	Performance Assessments:
Lecture View Smart board presentation Board demonstrations Open discussion Class debate Guided practice Shop demonstration Supervised shop work Group projects and individual projects Cooperative learning groups Homework	Shop Observation Oral Questioning Quizzes Written Test

Wallenpaupack Area School District

Course: Exploring Building Construction
and Power Mechanics

Grade Level: Grade 9

Unit: Carpentry

PA Standards: 13.1
13.2
13.3
13.4

Topics:	Skills:
Hand tools	Understanding proper hand tool safety Identifying and using hand tools <ul style="list-style-type: none"> • Measuring and layout tools • Saws • Planing, Smoothing, Shaping • Drilling, Boring • Fastening • Prying • Clamping • Storage
Activities:	Performance Assessments:
Lecture View Smart board presentation Board demonstrations Open discussion Class debate Guided practice Shop demonstration Supervised shop work Group projects and individual projects Cooperative learning groups Homework	Shop Observation Oral Questioning Quizzes Written Test

and Power Mechanics

Unit: Carpentry

PA Standards: 13.1
13.2
13.3
13.4

Topics:	Skills:
<p>Scaled-down structure</p> <ul style="list-style-type: none"> • Floors • Walls • Roof system 	<p>Cognitive and manipulative development to follow blueprints</p> <p>Listen to Lecture</p> <p>Participation</p> <p>Differentiate sequences</p> <p>Determine lengths</p> <p>Perform independence practice</p> <p>Lay out geometric shapes for cutting</p> <p>Take notes</p>
Activities:	Performance Assessments:
<p>Lecture</p> <p>View Smart board presentation</p> <p>Board demonstrations</p> <p>Open discussion</p> <p>Class debate</p> <p>Guided practice</p> <p>Shop demonstration</p> <p>Supervised shop work</p> <p>Group projects and individual projects</p> <p>Cooperative learning groups</p> <p>Homework</p>	<p>Shop Observation</p> <p>Oral Questioning</p> <p>Quizzes</p> <p>Written Test</p>

Wallenpaupack Area School District

Course: Exploring Building Construction and Power Mechanics

Grade Level: Grade 9

Unit: Automotive

PA Standards: 13.1
13.2
13.3
13.4

Topics:	Skills:
<p>Basic car care</p> <ul style="list-style-type: none"> • Fluids • Tires • Electrical • Belts and hoses 	<p>Understand the basic safety of the shop</p> <p>Understand and identify the purpose of the fluids under the hood</p> <p>Understand the workings of the automobiles belts</p> <p>Understand and identify the basics of lights and fuses</p> <p>Understand the basics of tires, tire rotation and spare tires.</p> <p>Define the basic design of the automobile, including the body, frame, engine, drive train, running gear, and suspension</p> <p>Identify the importance and influence of the automobile within our society and environment</p> <p>Categorize the many careers with the industry</p>
Activities:	Performance Assessments:
<p>Lecture</p> <p>View Smart board presentation</p> <p>Board demonstrations</p> <p>Open discussion</p> <p>Class debate</p> <p>Guided practice</p> <p>Shop demonstration</p> <p>Supervised shop work</p> <p>Group projects and individual projects</p> <p>Cooperative learning groups</p> <p>Homework</p>	<p>Shop Observation</p> <p>Oral Questioning</p> <p>Quizzes</p> <p>Written Test</p>

Wallenpaupack Area School District

Course: Exploring Building Construction and Power Mechanics

Grade Level: Grade 9

Unit: Automotive

PA Standards: 13.1
13.2
13.3
13.4

Topics:	Skills:
Basic Engine Components	<ul style="list-style-type: none"> Identify the major parts of a motor List parts Recognize the basic understanding of function of parts Identify cylinder block differences Identify the difference between in-line, V, slant, and opposed arrangement Identify the differences between 4, 6, 8, cylinders Identify various problems, diagnosis and services tips and procedures
Activities:	Performance Assessments:
<ul style="list-style-type: none"> Lecture View Smart board presentation Board demonstrations Open discussion Class debate Guided practice Shop demonstration Supervised shop work Group projects and individual projects Cooperative learning groups Homework 	<ul style="list-style-type: none"> Shop Observation Oral Questioning Quizzes Written Test
