Business Administrator

Lindsey Shaheen
Board Secretary

September 30, 2021

Dear Parents/Guardians:

Yesterday, September 29th, the Wallenpaupack Area School District received information that two students at the High School had tested positive for Covid-19, which had resulted in the identification of close contacts. The District has taken precautionary measures to notify students and staff who had close contact with the Covid-positive individuals to ensure appropriate quarantining timelines. The Department of Health will contact those who had close contact to review quarantine requirements and provide further instructions.

Students who are identified as close contacts will receive information specific to accessing and completing their classwork and assignments while quarantined. We will continue to use Schoology as our Learning Management System (LMS). If you should have questions regarding your child's educational needs while in quarantine, please contact your child's building administrator.

Sincerely,

Keith E. Gunuskey, Superintendent
Pandemic Coordinator
