

COLLEGE OF TECHNOLOGY
Johnson
COLLEGE

USDA Distance Learning and Telemedicine Program

Start working towards your Johnson College degree today by taking classes at any participating school district!

This program brings the opportunity for college education closer to home without the long drive and time to campus. Both high school and adult students will have interactive, two-way access to Johnson College faculty and will participate in remote education, discussions, testing, and skill demonstrations. The program will create a direct route to career technology education (CTE), a college degree, and ultimately a fulfilling career with family-sustaining wages for students in rural Northeastern Pennsylvania.
