Dear Parents/Guardians:

The Wallenpaupack Area School District has received information that one student from the Middle School, one staff member from the South Elementary School, and one staff member from the High School have tested positive for Covid-19. The District has taken precautionary measures to notify students and staff who had close contact with the Covid-positive individuals to ensure appropriate quarantining timelines. The Department of Health will contact the families of those who had close contact to review quarantine requirements and provide further instructions. As a reminder, school is closed on Monday, February 15, 2021 in observance of President's Day. I hope everyone is able to enjoy their extended weekend!

Sincerely,
