August, 2022

Dear Friends,

Welcome to the Wallenpaupack North Primary School! I hope that all of you have enjoyed a fun and restful summer. As we approach the 2022-2023 school year I would like to welcome back our first and second grade students and welcome our new group of kindergarten students. The challenges we have faced throughout the pandemic have been difficult. We look forward to the upcoming school year where we can focus on returning to reestablishing our normal programs in a normal setting.

I look forward to working with teachers, parents, and most importantly students to provide our kids with the most rewarding experience possible. At the North Primary School, we strive to build your child's educational foundation and prepare them for their educational career at Wallenpaupack. The opportunities for our kids are bountiful and we look to continue to provide our students with opportunities to grow academically and socially. We will continue, as we always have, to teach children to be kind, respectful, and to communicate effectively with each other.

For our students to be successful we encourage a strong relationship between home and school. Please don't hesitate to contact your child's teacher, one of our guidance counselors, or myself, to discuss your concerns. Together we can do great things that are all in the best interest of our students.

Wishing you all the best in 2022-23, Go BUCKS!!

Kevin Kromko
North Primary School Principal
