Course / Grade:	5th Grade Art	Type of Offering:	X <input type="checkbox"/> Required <input type="checkbox"/> Elective
Department:	Art	Length of Course:	<input type="checkbox"/> Marking Period (1/4 year) <input type="checkbox"/> Semester (1/2 year) <input type="checkbox"/> Year (1 full year)
Course # / Code:			Full Year/Once per Week

	Date of Completion:	
	Date Adopted:	

--	--	--

Date of Revision:	March 21,2023
Revision Author(s):	Jana Kilduff, Nicole Delevan

Course Description – *a narrative of the entire course. Highlight major concepts addressed and the benefit for student completion.*

Students in fifth grade will be building upon the curriculum and standards that have been taught in previous years. They will develop and reflect on their skills through many mediums as they complete the curriculum that is aligned with the PA Standards and national standards. The students will learn about the Elements of Art and the Principles of Art as they explore many projects that delve into these areas. Both two and three-dimensional pieces of artwork will be created as each child works towards their own potential. Opportunities for individual expression and appreciation of the visual arts will be explored as our students build a foundation for a creative growth mindset.

Course Rationale – *highlight the purpose of this course and what makes it relevant.*

- Students will use visual perceptual literacy to include rendering from imagination
- Students will continue to develop and explore concepts in the Elements and Principles of Art

- Students will use visual communication of ideas and develop descriptive details
- Students will draw from memory
- Students will draw from direct observation
- Students will display techniques and knowledge of materials
- Students will understand the worth of drawing as a communicative process
- Students will recognize one technique as related to a historical artwork and/or artist

Unit	Standard	Essential Questions	Enduring Understandings	Vocabulary	Materials/Resources	Assessment
Drawing	9.1.3.A,B,C,D,E,H 9.2.3.A,C,F,G 9.3.3.C National Standards: Creating: 1, 2, 3 Performing/Presenting/ Producing: 4, 5, 6 Responding: 7, 8, 9 Connecting: 10 & 11	How do we communicate ideas onto paper with drawing media? How do we draw from imagination and from observation? How does color theory apply to art making with drawing materials? How can we apply the color wheel to a drawing to show	Create facial mapping for portraits Apply the Elements of Art (line, shape, color, texture, space) Drawing from objects, figures, landscapes Drawing from recollection of people, places, and things Drawing from observation-objects,	Elements of Art: color, shape/form, line, texture, value, and space Principles of Art: repetition, proportion/scale, balance, contrast, emphasis/focal point, movement/rhythm, and unity/harmony Drawing media: pencil (range of values from 2H-8B), erasers (regular and kneaded), colored pencil, pen, charcoal, crayon, chalk pastel, oil pastel, and markers (permanent and water-based). Ruler, right angle ruler, protractor, and compass	Visual artwork/information on Master/Famous Artists PowerPoint Reference Sheets/Guided Drawing Classroom Visuals Drawing media: pencil (range of values from 2H-8B), eraser (regular and kneaded), colored pencil, pen, charcoal, crayon, chalk pastel, oil	Teacher observation, student participation, oral questioning, completed project/practice session artwork, proper use of tools, and routine set-up and clean-up. Rubric is attached at the bottom of the document.

		color relations realistically and creatively?	<p>figures, landscapes</p> <p>Drawing from imagination-figures/animals and situations/events</p> <p>Use of materials, including, but not limited to, pencil, ink colored pencil, crayons, markers (water based and permanent), and oil and chalk pastels</p>	<p>1-point perspective (Horizon line, converging lines, parallel lines)</p> <p>Facial proportions for self-portrait/portrait foreground, middle ground, and background</p> <p>Drawing techniques: Shading, hatching, cross-hatching, stippling, cross-contour, subtractive (eraser), and blending</p>	<p>pastel, and markers (permanent and water-based). Ruler, right angle ruler, protractor, and compass, erasers</p> <p>Various papers</p>

Course Description – *a narrative of the entire course. Highlight major concepts addressed and the benefit for student completion.*

Students in fifth grade will be building upon the curriculum and standards that have been taught in previous years. They will develop and reflect on their skills through many mediums as they complete the curriculum that is aligned with the PA Standards and National Standards. The students will learn about the Elements of Art and the Principles of Art as they explore many projects that delve into these areas. Both two and three-dimensional pieces of artwork will be created as each child works towards their own potential. Opportunities for individual expression and appreciation of the visual arts will be explored as our students build a foundation for a creative growth mindset.

Course Rationale – *highlight the purpose of this course and what makes it relevant.*

- Students will demonstrate knowledge of painting techniques
- Students will show an appreciation for the effect of techniques unique to painting
- Students will recognize different styles
- Students will associate an artist with a specific style or period
- Students will display techniques and knowledge of materials
- Students will understand the worth of painting as a communicative process

Unit	Standard	Essential Questions	Enduring Understandings	Vocabulary	Materials/Resources	Assessment
Painting	9.1.3. A,B,C,E,F,H,J,K 9.2.3 B 9.3.3. A,B,C,G National Standards: Creating: 1, 2, 3 Performing/Presenting/ Producing: 4, 5, 6 Responding: 7, 8, 9 Connecting: 10 & 11	How do we use different brushes to create effects with watercolor and tempera paint? How can we apply different painting techniques and different materials to represent different ideas realistically and creatively?	Knowledge of materials- tools and paper Knowledge of medium-tempera, watercolor, acrylic Knowledge of technique- wash, wet/wet, wet/dry, crayon resist, dry brush Knowledge of Style	Elements of Art: color, shape/form, line, texture, value, and space Principles of Art: repetition, proportion/scale, balance, contrast, emphasis/focal point, movement/rhythm, and unity/harmony Painting media: watercolor, tempura, acrylic, brush (round brush, flat brush, and detail brush), palette, and watercolor paper. Dry brush, wet-on-wet, dry-on-wet, wax resist, tape resist, and blending	Visual artwork/information on Master/Famous Artists PowerPoint Reference Sheets/Guided Drawing Classroom Visuals Painting media: watercolor,	Teacher observation, student participation, oral questioning, completed project/practice session artwork, proper use of tools, and routine set-up and clean-up. Rubric is attached at the bottom of the document.

		<p>In what ways can we apply the elements and principles of art to create a painting?</p> <p>Why is color theory imperative for painting with watercolor, tempera, and/or acrylic?</p>	<p>(Impressionism, etc.)</p> <p>Knowledge of Artists (historical examples)</p>	<p>Landscape/seascape/cityscape</p> <p>Color theory</p> <p>Chromatic</p> <p>Achromatic</p> <p>Warm/cool colors</p> <p>Primary, secondary, and intermediate/tertiary colors</p> <p>Complementary colors</p> <p>Neutral color</p> <p>Tint, tone, and shade</p>	<p>tempura, acrylic, brushes (round brush, flat brush, and detail brush), palette, various papers, and tape.</p> <p>Plywood base</p>

Opportunities for individual expression and appreciation of the visual arts will be explored as our students build a foundation for a creative growth mindset.

Course Rationale – *highlight the purpose of this course and what makes it relevant.*

- Students will know, understand, and use printmaking tools
- Students will discuss printmaking techniques
- Students will discuss and recognize symmetry/asymmetry image
- Students will expand knowledge of vocabulary unique to printmaking
- Students will develop understanding of sequential process of printmaking
- Students will create a printed project

Unit	Standard	Essential Questions	Enduring Understandings	Vocabulary	Materials/Resources	Assessment
Printmaking	<p>9.1.3. A,B,C,H,J, 9.2.3 B,C 9.3.3. Course Description – *a narrative of the entire course. Highlight major concepts addressed and the benefit for student completion.*

Students in fifth grade will be building upon the curriculum and standards that have been taught in previous years. They will develop and reflect on their skills through many mediums as they complete the curriculum that is aligned with the PA Standards and national standards. The students will learn about the Elements of Art and the Principles of Art as they explore many projects that delve into these areas. Both two and three-dimensional pieces of artwork will be created as each child works towards their own potential. Opportunities for individual expression and appreciation of the visual arts will be explored as our students build a foundation for a creative growth mindset.

Course Rationale – *highlight the purpose of this course and what makes it relevant.*

- Create guided age-appropriate examples of fiber arts and crafts that emphasize elements and principles of art.
- Provide opportunities for students to discuss their own works and the works of others.
- Hands-on opportunities to create artwork using a variety of media within fiber arts and crafts.
- Apply fiber art media and techniques to represent both realistic and abstract artwork
- Apply fine motor skills and elements of art to a fiber artwork.
- Create 2D and 3D artwork from various fiber arts and craft media.

Unit	Standard	Essential Questions	Enduring Understandings	Vocabulary	Materials/Resources	Assessment
Fiber Arts/Crafts	9.1.3. A,B,C,D,E,H,J,K 9.2.3 B 9.3.3. Course Rationale – *highlight the purpose of this course and what makes it relevant.*

Sculpture/Pottery:

- Students will reinforce, develop and enhance concept of 3-D artwork
- Students will gain and foster an appreciation for process and qualities unique to 3-D clay work
- Students will create a piece of pottery
- Students will develop skills in hand building techniques
- Students will know and understand the kiln and firing process
- Students will understand glazing techniques and color choice

Unit	Standard	Essential Questions	Enduring Understandings	Vocabulary	Materials/ Resources	Assessment

Mixed Media:

- Students will know, understand, and uses for a mixed media piece of artwork
- Students will foster an appreciation and knowledge of a variety of drawing and painting media
- Students will develop an appreciation for combining various materials together to fully represent the artwork
- Students will expand knowledge of vocabulary of mixed media

- Students will create a mixed project

Unit	Standard	Essential Questions	Enduring Understandings	Vocabulary	Materials/Resources	Assessment
Mixed Media	9.1.3. A,B,C,H,J, 9.2.3 B,C 9.3.3. A,B National Standards: Creating: 1, 2, 3 Performing/Presenting/ Producing: 4, 5, 6 Responding: 7, 8, 9 Connecting: 10 & 11	What media can be combined to create a cohesive, unified, and expressive artwork? What media are difficult to combine to create a cohesive artwork and why? Can mixed media be 2D and 3D within one artwork? What media are used to display and portray craftsmanship within an artwork?	Knowledge of various materials Knowledge of the process of a mixed media piece of art Use of exploration of many mediums Ability to create a final project Understanding of set up and clean-up of the process	Elements of Art: color, shape/form, line, texture, value, and space Principles of Art: repetition, proportion/scale, balance, contrast, emphasis/focal point, movement/rhythm, and unity/harmony Mixed media Drawing media: pencil (range of values from 2H-8B), erasers (regular and kneaded), colored pencil, pen, charcoal, crayon, chalk pastel, oil pastel, and markers (permanent and water-based). Course Description – a narrative of the entire course. Highlight major concepts addressed and the benefit for student completion.

Selected students in fifth grade from the North Intermediate School will be meeting once a week to . They will develop and reflect on their skills through many mediums as they complete the curriculum aligned with the PA Standards and national standards. The students will learn about the Elements of Art and the Principles of Art as they explore many advanced projects that delve into these areas. Both two and three-dimensional pieces of artwork will be created as each student works towards their own potential. Opportunities for individual expression and appreciation of the visual arts will be explored as our students build a foundation for a creative growth mindset.

Course Rationale – *highlight the purpose of this course and what makes it relevant.*

Mixed Media:

- Students will know, understand, and complete several finished pieces of artwork
- Students will foster an appreciation and knowledge of a variety of drawing and painting media
- Students will develop an appreciation for combining various materials together to fully represent the artwork
- Students will expand knowledge of vocabulary of mixed media
- Students will create a portfolio containing finished pieces of artwork that are exemplary of their skills and concepts learned

3 rd -5 th Rubric	4- Exceeding	3- Meeting	2- Working Towards	1 Not Assessed
Craftsmanship	Student goes above and beyond to make their work look complete, detailed, and neat.	Student meets requirements of project in regard to making their artwork look finished but did not do any extra.	Student is working towards improving their craftsmanship and attention to the neatness of their final product.	Student is not assessed.
Effort	Student puts in extra time and attention to their artwork to show application of skills and concepts.	Student puts in required effort and attention to finish and show learned skills and concepts.	Student puts in minimum effort, rushes through project quickly, and does not show effort to apply learned skills and concepts.	Student is not assessed.
Creativity	Student shows original ideas that apply the skills and concepts. Student was thinking outside of the box instead of copying shown examples or demonstration.	Student may have copied ideas from examples or demonstration but puts their own ideas into the project in small portions.	Student copies the examples or demonstration exactly with no attempt to add any of their own ideas.	Student is not assessed.
Media-Specific Skills	Determined by teacher.			Student is not assessed.
Project-Specific Requirements	Determined by teacher.			Student is not assessed.
