

MEDICAL ASSISTANCE BILLING APPLICATION TRAINING

Medical Assistance (also known as Medicaid) has the broadest coverage of medical and mental/behavioral health services for kids under 18 of any insurance plan. It covers services rarely covered by employer-based insurance such as Behavioral Health Rehabilitation Services (“Wraparound”), in-home shift nursing or personal care services, diapers, nutritional supplements, prescriptions, and transportation to and from medical appointments. It also covers services like in-home nursing or personal care, physical, speech or occupational therapy without annual or lifetime caps often imposed by other insurance plans. Medical Assistance can be a child’s only insurance, or it can be secondary to other coverage, covering those services or equipment not covered by the child’s primary insurance. Many children with severe disabilities will qualify for Medical Assistance, regardless of their parent’s income.
